PROFESSIONAL SUMMARY

Creative Designer and Front-End Developer with 3+ years of experience delivering high-impact visual identities and digital experiences. Designed 200+ marketing creatives and 50+ professional logo identities for startups and university organizations. Skilled in translating brand strategy into compelling visual systems while maintaining technical precision in web implementation and cloud deployment.

CORE COMPETENCIES

- Brand Identity Design (Logos, Typography, Color Systems, Brand Guidelines)
- UI/UX Design & Responsive Web Interfaces
- Creative Direction & Visual Storytelling
- Frontend Development (HTML5, CSS3, JavaScript, React.js)
- Cloud Deployment (AWS EC2, S3, RDS, CloudFront)
- Design Tools: Figma, Adobe Photoshop, Illustrator, Canva
- Version Control & Collaboration: Git, GitHub
- Project Management & Client Communication

PROFESSIONAL EXPERIENCE

Graphic Design Team – Centurion University (Jan 2023 – 2026)

- Designed and delivered 200+ marketing posters, banners, and digital creatives for major university events.
- Led a creative team of 5+ members for university event branding initiatives.
- Managed end-to-end visual campaigns for 10+ major campus events.
- Coordinated with event organizers, marketing teams, and developers to ensure timely delivery.
- Collaborated with developers and organizers to ensure brand consistency across digital and print platforms.
- Maintained structured design systems for recurring institutional branding projects.

Freelance Graphic Designer & Web Developer (2024 – Present)

- Created 20+ custom logo identities for startups, student communities, and small businesses.
- Delivered complete brand identity packages including logo variations, typography systems, and color guidelines.

- Developed and deployed 10+ responsive websites using React.js and AWS cloud infrastructure.

SELECTED PROJECTS

- Community Wellness Campaign: Designed cohesive poster series and social media creatives, improving campaign visibility across campus platforms.
- Personal Portfolio Website: Designed and developed a performance-optimized portfolio hosted on AWS S3 + CloudFront.
- Mini E-Commerce Application: Built user-focused UI and backend logic using Node.js and AWS RDS.
